# Advanced Financial Statements Analysis & Forecasting

Ref.: FI-1101    Location: Amsterdam, Netherlands

# Advanced Financial Statements Analysis & Forecasting

Ref.: FI-1101 Location: Amsterdam, Netherlands

## Introduction

In today's world, finance professionals are challenged by providing management with a detailed analysis of the impact of the organization's financial decisions. Therefore, finance professionals need to be skilled at reading through the numbers on the financial statements, analyzing the figures, interpreting the various ratios, and presenting this analysis in a dynamic manner. This course takes you from the first step of understanding the relationships between the different elements of financial statements, through the process of calculating and analyzing the financial ratios, to the last step of presenting recommendations. While applying Excel tools and Techniques, various real-life examples of published financial statements will be used throughout the course.

## Training Objectives

- Apply the framework of financial statements analysis
- Use ratio and financial analysis
